### **Consent form for publishing photos**

To introduce our association or youth employment, we would like to publish photos and articles on our homepage, social media, or if necessary, in the press. However, it is only possible to publish photos if the respective party submits their written consent.

In order to be not obligated to ask permission for every single photo, we request that persons who can be seen in the photo(s) or, if not of legal-age, that a parent/guardian signs this general agreement.

This agreement is valid until we receive a written recall from

- a minor's legal guardian
- a person who has been pictured on one of the images (legal-aged or not)

All the acquired data will be deleted immediately with the written recall. Thus, there will be no additional cost or further disadvantage.

**I agree, that ...**

- my photos** (always required)
- photos of my child** (required, if not legal-aged)

**can only be published as outlined above. No names, addresses or further personal data, forwarded or for other purposes used, may be published. This consent form is valid until I submit a written recall.**

**First name, last name, date and signature of the legal guardian (if not legal-aged):**

---

**First name, last name, date and signature of the child (always required):**

---

Thank you for your trust!
